CLOUDSHELL PRO:

CloudShell Pro accelerates and simplifies environment provisioning by enabling teams to create self-service, on-demand replicas of full-stack infrastructure environments for hybrid cloud configurations in just one click.

BENEFITS

Deliver Environments On-Demand
Provide your teams with on-demand, self-service access to the standardized environments they need.

Increase Efficiency
Increase resource efficiency for physical and virtual assets through lab consolidation and automated tear-downs of unused resources.

Gain Full Visibility
Increase visibility and control with single pane of glass.

ENVIRONMENT AS A SERVICE ACROSS YOUR ORGANIZATION

Create replicas of complex infrastructure and application configurations for development, testing, sales demos, training, and support with just one click.

Slash your Dev/Test and lab infrastructure cost by 61%
Accelerate your enterprise sales cycles by 22%
Spin up training and test environments in under 1 minute

“The ability to spin-up sandboxes for Hybrid cloud deployments with standardized environments and end-to-end visibility can allow development and test teams to make the best use of on premise and public cloud resources, simplify workflows and rollout releases faster with higher quality”
